CONSTITUTION 2016

20. PROCEDURES FOR COUNTING PROPORTIONAL REPRESENTATION BALLOTS APPENDIX 2

20.1 Ballot papers

The ballot paper should state the number to be elected and an instruction about how to vote. For example. (n = number to be elected) Number the boxes in the order of your choice from 1 onwards for at least "n" candidates and continue numbering as many of the remaining candidates as you wish. To be formal, a ballot paper must.

1. Be marked with the numeral 1 for one candidate and no more than one candidate, and
2. Have at least one candidate marked, each with a numeral.

20.2 Principles

- People are elected in proportion to the number of votes they and/or their group receive.
- Affirmative action in favor of women candidates may require the alteration of some procedures.
- It is a preferential voting system. Once elected or excluded by the count, a candidate cannot receive any more votes from a subsequently distributed parcel of votes and instead the order of preferences is followed to allocate the votes to the next continuing candidate. On the completion of the allocation of each parcel of votes, the progress total is checked to see if any candidate has been elected until all vacancies are filled.

20.3 Steps of the Count

See also Principles, Affirmative Action, Exhausted Votes, Deciding Ties and Exact Quotas. These Rules are written with the use of a standard tally sheet in mind.

Step 1

Sort the ballot papers according to the first preference, record the number for each candidate and set aside all informal votes. It is essential that only valid votes be in the count.

Step 2

Total up all the valid first preference votes, each of which is attributed a value of 1000 points by the formulae in step 3.

Step 3

Calculate the quota to the next highest whole number from.

Step 4

Record as elected, in order from the highest to the lowest vote, all candidates who receive a quota or more. A candidate with zero remains in the count at this stage.

Step 5

Beginning with the elected candidate who received the highest vote in the first count, transfer the votes received by that candidate to continuing candidates according to the preferences shown. Multiply the votes transferred by their transfer value and record this extra value for each candidate to whom votes

UNITED CITIZENS AUSTRALIA - UCA

CONSTITUTION 2016

were transferred. Add this extra value and record the new progress totals on the tally sheet leaving only a quota as the fixed progress total of the elected candidate.

To calculate the transfer value for each parcel of votes transferred.

Or more simply.

Remainders

If there is a fractional remainder after calculating the transfer value for each parcel of votes; the numerator of the fraction must be recorded as a remainder to maintain the correct overall value at each step on the tally sheet.

Record as elected any other candidate who receives a quota or more.

At each step of the count the overall value remains constant. Find and correct any errors. Each parcel of votes received by a candidate is kept separately bundled and in sequence.

Step 6

Repeat the procedure in step 5 in descending order from highest to lowest vote for all candidates elected in the first count. Record as elected any other candidate who receives a quota or more after each transfer.

Step 7

After all the votes of the candidates elected in the first count have been transferred, then transfer the votes of the subsequently elected candidates in the same order that these candidates were elected regardless of the size of their surplus.

Note.

When a candidate is elected later than in the first count, only the last received parcel of votes, which created their surplus, carries the transfer value and is transferred. Otherwise the procedure is the same as steps 5 & 6.

Step 8

When there is no further candidate with a surplus, exclude all candidates with zero and then exclude the candidate with the lowest progress total. All of the excluded candidate's votes are then distributed according to their preferences and without alteration of their values. These votes are distributed one parcel at a time and in the same order in which the excluded candidate received them.

Step 9

After each parcel of votes is distributed, record as elected any further candidate who reaches a quota or more and then continue distributing the excluded candidate's votes.

Step 10

At the completion of each exclusion, transfer any new surplus using the procedure in step 7 before making the next exclusion.

UNITED CITIZENS AUSTRALIA - UCA

CONSTITUTION 2016

Step 11

Continue to exclude the candidate with the next lowest progress total, repeating steps 8,9, & 10 until all vacancies are filled.

Step 12

If there are only 2 candidates remaining and one vacancy to fill, the candidate is elected who has the highest progress total even though the value may be below the quota. Where the number of candidates remaining is equal to the number of unfilled vacancies, all those remaining candidates are elected even though their progress totals may be below the quota.

20.4 Affirmative action

20.4.1

Women and men must be given the opportunity of being elected in their own right before Affirmative Action applies.

20.4.2

If ever the next step in the count would result in the election of more men or women than is allowed under the Affirmative Action requirement for the election, steps 4 and 12 must be altered in the following three ways to elect the required number of women and men.

(A) Reintroduce to the count, with zero votes, all previously excluded female or male candidates (as the case Requires).

(B) Exclude all remaining male or female candidates (as the case requires) including the man or woman who would have been next elected without the Affirmative Action requirement.

(C) The value of any ballot paper distributed from a male or female candidate under Affirmative Action alteration (b) will be distributed to the remaining female or male candidate with the highest preference on that ballot paper.

20.5 Exhausted Votes

20.5.1

When a vote cannot be transferred because it does not show a preference for any candidate left in the count, it is recorded as exhausted.

20.5.2

When transferring the votes of an elected candidate the transfer value is calculated and applied only to the votes that are transferable and exhausted votes are usually recorded at zero value.

20.5.3

When distributing the votes of an excluded candidate an exhausted vote is recorded separately along with its unaltered value.

UNITED CITIZENS AUSTRALIA - UCA

CONSTITUTION 2016

20.5.4

Votes cannot increase in value. If a transfer value is calculated which attributes to a vote a higher value than when it was received by a candidate, the calculation is ignored and the votes are transferred without alteration of the value at which they were received. In this rare case the exhausted votes carry any missing value.

20.6 Deciding equalities

20.6.1

If two (2) or more candidates have an equal progress total and one (1) must be selected for transfer or exclusion, select the one (1) by looking back through the count to the latest stage where they were not equal. If the equality has always existed, select by chance the one to transfer or exclude.

20.7 Exact Quota

20.7.1

If any candidate is elected with an exact quota and no surplus this candidate's papers are set aside since they will not be required again in this count.

20.8 Ballot Papers Kept to Fill a Vacancy by Recount

20.8.1

Candidates who unsuccessfully contested the original election and who remain eligible may nominate to fill a vacancy.

20.8.2

The original count including all candidates is repeated up to the stage where the vacating member was elected to isolate and calculate the total value of all the ballot papers received by that person at that stage. Ballot papers received by a vacating member include first votes and/or votes received from transfers and exclusions. If the vacating member was originally elected under step 12, the last exclusion is performed according to steps 8 and 9 until the parcel of votes that would have enabled the vacating member to equal or exceed the quota is distributed even though this was not necessary in the original count.

20.8.3

Ballot papers received by the vacating member are then transferred one parcel at a time, in the same order in which they were received and without alteration of their value to the candidates who have nominated for the recount.

20.8.4

A preference on a ballot paper marked for the vacating member, an elected member or a person who did not nominate for the recount is to be ignored and the sequence of preferences followed to transfer the vote to the next continuing candidate.

UNITED CITIZENS AUSTRALIA - UCA

CONSTITUTION 2016

20.8.5

The candidate is elected who receives more than half of the value of the votes. If no candidate is elected at first, repeat step 8 until a result is achieved.

20.9 Computer assistance

20.9.1

Where a computer is used to count a ballot under these Procedures, the Administrative Committee shall approve the system.

21. PROCEDURES FOR COUNTING BALLOTS UNDER THE OPTIONAL PREFERENTIAL SYSTEM APPENDIX 3

Where only one vacancy is to be filled.

21.1

Check that all ballot papers are formal. To cast a formal vote in such a ballot the voter need only indicate a first preference. Inserting a numeral 1, an X or other indication of intent in the appropriate square, may do this.

21.2

Check first preference votes. The formal votes should be allocated between candidates in accordance with the first preference of the voter.

21.3

If one of the candidates has more than half the total number of formal votes (i.e. an absolute majority), then that candidate should be declared elected.

21.4

If none of the candidates has an absolute majority then the candidate with the lowest number of primary votes is eliminated and the preferences of those voters who cast primary votes for that candidate are distributed amongst the remaining candidates.

21.5

Where a voter who cast a primary vote for the eliminated candidate has not cast a preference for any of the remaining candidates then that vote is EXHAUSTED and the number of formal votes is reduced by one (or in a preselection ballot by the value of the vote if that vote is less than 1).

21.6

If none of the remaining candidates has an absolute majority of the formal votes remaining in the ballot, the candidate with the lowest number of votes after the distribution of the preferences of those voters whose primary or preferential vote has been recorded for that candidate should be distributed amongst the remaining candidates.

21.7

The process as outlined in 20.6 should be repeated until one-candidate gains an absolute majority.
